Hi Rachel,

I just looked at ECF 131-2 and compared it with my copy of the transcripts. My copy of the transcript is identical to the one that the Respondent filed as ECF No. 131-2. The first seven pages of the transcript are not numbered, apparently because they consist of the cover and the index of the transcript. The page numbering begins on page 8 at the start of the actual trial proceedings. Thus it appears that the Court has the full transcript for that particular volume and is not missing any pages.

Thanks,  
Eric Montroy
